SECTION 2: ABOUT US

2.1 LAUNDRÉ: REDEFINING THE MODERN LAUNDROMAT EXPERIENCE

Laundré is changing the way people think about doing laundry. What was once a mundane weekly chore has been transformed into an experience defined by calm, comfort, and effortless convenience. Every Laundré laundromat is purposefully designed to combine elegant aesthetics with modern technology, creating a space that feels safe, intuitive, and welcoming.

From the moment a customer walks in, they notice the difference. The space is bright, open, and thoughtfully laid out with no dark corners or “out of sight” areas ensuring every visitor feels secure at all times. The soft lighting, neutral tones, and gentle ambient soundtrack replace the harsh hum of traditional machines, creating an atmosphere that is both modern and serene. It’s a laundromat designed for people to feel good in.

Security and peace of mind are integral to Laundré’s model. Each location is fitted with ultra-high-definition CCTV, live PA and microphone-enabled technology, and is opened and closed daily by a licensed security guard who conducts routine safety checks. Trading hours, from 5 am to 10 pm, cater to early risers and shift workers while maintaining a safe environment after dark. Every site is also selected for easy accessibility, with ample nearby parking to accommodate customers carrying heavy laundry loads.

Technology is at the heart of the Laundré experience. The laundromats are completely cashless, eliminating hygiene risks, coin jams, and unnecessary loitering. Instead, customers make simple tap-and-go payments through the BubblePay POS kiosk and are guided throughout their visit by Nelo, Laundré’s AI powered in store avatar. Nelo offers step-by-step assistance from choosing the right washer or dryer to using soap dispensers and completing payments ensuring every visitor can operate the machines with ease. And for those who need additional support, the Laundré Concierge team is available via SMS during operating hours, ready to assist instantly.

Even the smallest details have been considered. For instance, premeasured Laundré Pods are available in-store offering customers a quick, clean, and convenient detergent option while reducing residue build up in machines. Each decision from the use of pods to the avoidance of wash and fold services is intentional, prioritising the comfort and autonomy of the self-service user.

With its blend of style, safety, and smart technology, Laundré has redefined what a laundromat can be creating a space that's as functional as it is beautiful, and as convenient as it is calming.

3.8 BUSINESS REGISTRATION

Registering the business name is compulsory and must be done before the business starts trading.

The Australian Government has recently phased out trading names. All Laundré franchise partners must register a business name with ASIC before trading.

Each partner is allocated a permitted name aligned with their location, e.g. Laundré (Newcastle). Legally, this is shown as:

ABC Company Pty Ltd trading as Laundré (Newcastle).

If you are unsure which name to register or wish to request a variation, contact Head Office. Processes may vary slightly by state or territory, but Head Office will guide you. The way that the business is registered will differ slightly depending on your state or territory.

<https://asic.gov.au/for-business/registering-a-business-name/>

Australian Business Number (ABN)

All Franchise partners are required to obtain an Australian Business Number (ABN). An Australian Business Number (ABN) is a unique 11-digit number that identifies your business to the government and community. An ABN doesn't replace your tax file number, but it is used for various tax and other business purposes.

3.9 SET UP YOUR TRADING STRUCTURE

The four most common types of business structures in Australia are:

Sole Trader: A sole trader is the simplest form of business structure. It involves a single individual who owns and operates the business. The owner has full control over the business's operations, profits, and liabilities. This structure is easy to set up, has minimal legal formalities, but the owner is personally responsible for the business's debts and obligations.

Company: A company is a separate legal entity from its owners. It is created by incorporating under the Australian Securities and Investments Commission (ASIC). A company has shareholders who own the business and Directors who manage its operations. Companies have limited liability, meaning the shareholders' personal assets are generally protected from the company's debts and obligations. Companies are subject to more extensive legal and reporting requirements compared to other trading structures.

Partnership: A partnership involves two or more individuals or entities who come together to carry on a business and share profits, losses, and responsibilities. Partnerships can be either general partnerships, where all partners have unlimited liability, or limited partnerships, which include both general and limited partners. Partnerships are governed by a partnership agreement that outlines the terms and conditions of the partnership.

A Trust: A trust is a legal arrangement where a trustee holds and manages assets for the benefit of beneficiaries. The trustee is responsible for managing the trust's affairs and distributing the income or assets to the beneficiaries according to the trust deed. In a business context, discretionary trusts (also known as family trusts) are often used to operate a business and distribute profits among family members or designated beneficiaries.

Speak to your accountant about the structure that best suits your individual circumstance.

3.10 TAX REGISTRATION

Tax Registration

Ensuring you're registered for the correct taxes is an essential step to opening your business.

Here are some common tax registrations for small businesses in Australia:

Goods and Services Tax (GST):

If your annual turnover is expected to be \$75,000 you must register for GST. Register for GST through the ATO either during the business registration process or separately.

Pay As You Go (PAYG) Withholding:

If you employ staff, you need to register for PAYG withholding. PAYG withholding involves deducting tax from your employees' wages or salaries and remitting it to the ATO on their behalf. You can register for PAYG withholding through the ATO.

3.11 BUSINESS INSURANCES

To ensure compliance, asset protection, and safe operation, all franchise partners must obtain and maintain the following insurance and registrations prior to opening and throughout the term of the franchise:

Business & Contents Insurance: Franchise partners must hold comprehensive business and contents insurance to protect against loss, theft, and damage to equipment and property.

Estimated cost: \$5,000 – \$6,000 per year.

Public & Product Liability Insurance (*if required by landlord*): Many commercial leases require a minimum level of public liability insurance to protect against incidents involving customers or third parties.

APRA Music Licence: As background music is played in-store to enhance the customer experience, an APRA music licence is required to legally play music in a public commercial environment. This may be arranged through services such as *Soundtrack Your Brand*.

Estimated cost: approx. \$80 per month.

Police Check: All franchise partners must provide a valid National Police Check prior to commencement, demonstrating suitability to operate a public-facing business.

Estimated cost: approx. \$100.

Workers' Compensation: Not currently applicable as the business is designed to be owner-operated with no employees. However, if the franchise partner hires staff in the future, Workers' Compensation Insurance will become mandatory under state legislation.

4.1 INDIVIDUAL FRANCHISE MODEL

Laundré has adopted an individual franchise model meaning each franchise partner has a direct relationship with the franchisor.

The **Individual Franchise Model** can be represented like this:

4.2 THE FRANCHISE AGREEMENT

The franchise agreement is a signed legal contract, which is the basis of your business. It provides the rules for a long and mutually rewarding co-operation between the franchisors and franchise partners and establishes the obligations of both parties to maintain a continuing business relationship.

Laundré franchise agreement is a 5 year term with a further option to renew for another 5 years.

Be aware of the terms and conditions which are included as a protection for both parties. Failure to comply with the terms of the Agreement could lead to termination, particularly in relation to the following:

- Failure to hold a required license.
- Bankruptcy or insolvency.
- Conviction of a serious criminal offense

4.3 FRANCHISE TERRITORY MODEL

Each Laundré franchise is granted a **non-exclusive territory**, carefully structured to balance accessibility with growth potential. Territories are defined by **minimum distance buffers** between Laundré locations to maintain fair market reach and protect each franchise partner's investment while ensuring brand visibility and customer convenience across regions.

The franchise territory is determined according to population density and geographic area as follows:

- **CBD areas:** Minimum distance of 400 metres between Laundré locations.
- **Metropolitan areas:** Minimum distance of 2.5 kilometres between Laundré locations.
- **Regional areas:** Minimum distance of 4 kilometres between Laundré locations.
- **Rural areas:** Minimum distance of 5 kilometres between Laundré locations.

This structure ensures each franchise partner has access to a sufficient population base to sustain operations, attract repeat customers, and support

steady business growth, while allowing Laundré to expand strategically across Australia.

Territory Review & Adjustments

Head Office reserves the right to:

- Review a territory prior to signing to confirm population and growth projections.
- Adjust boundaries where necessary to align with changing demographics or commercial developments.
- Negotiate expanded areas if future initiatives (e.g., pickup/delivery services) are approved.

4.4 ROYALTY PAYMENTS

Laundré's Royalty fee is 17% of Gross Revenue (as set out in the Key Items).

Royalty Fees are calculated and collected automatically through the POS system using the payment method linked to your POS account.

What you must do

- Ensure all sales are processed through the POS (no off-system transactions).

- Foster innovation in services and technology to maintain Laundré's market leadership and support long term growth.

5.2 FRANCHISE PARTNERS ROLE & RESPONSIBILITIES

Each Laundré franchise partner is responsible for the day to day oversight, financial management, and local promotion of their business. While the laundromat is largely automated and requires minimal hands on involvement, franchise partners are required to maintain accountability and uphold the brand's high operational standards for their franchised unit(s).

1. Financial Responsibilities

- **Pay all fees on time**, including:– Software subscriptions
 - Cleaning and maintenance services
 - Insurance premiums
 - Utility bills and rent.

Timely payment ensures continuity of service, compliance with franchise obligations, and uninterrupted business operations.

2. Business Monitoring

- Monitor the business remotely through the online management systems provided (including POS and performance dashboards).
- Regularly review reports and system alerts to track sales, usage, and performance metrics.
- Address any operational issues promptly, including equipment faults, cleaning concerns, or customer feedback, by liaising with approved suppliers or Head Office support.

3. Marketing & Local Area Engagement

- If desired, the franchise partner may undertake local area marketing initiatives to promote the business within their catchment area. With approval from the Franchisor. For example – letter box drop can be done by a franchisee, with the collateral completed by head office. Any costs are incurred by the franchisee.
- All marketing activities must comply with Head Office brand and marketing guidelines to ensure consistency across the Laundré network.

4. Brand Representation

- Uphold Laundré's values and brand image at all times.
- Maintain a clean, welcoming, and operationally sound facility in line with company standards.
- Ensure customer experiences remain consistent with the Laundré promise of quality, convenience, and innovation.

5.3 CLEANING AND MAINTENANCE

To maintain Laundré's premium presentation standards, all laundromats must be cleaned and maintained regularly. A clean and well-functioning site enhances customer satisfaction and protects equipment longevity.

Franchise partners have flexibility in how cleaning and maintenance are managed. This may be:

- **Undertaken directly** by the franchise partner, or
- **Outsourced** to a third-party provider either managed by Head Office on behalf of the franchise partner or managed independently by the franchise partner.

The choice of arrangement is at the discretion of the franchise partner. However, regardless of who performs the work, the following standards must be met:

- **Cleaning and Presentation:** The laundromat must be kept in pristine condition at all times, reflecting the Laundré brand image.
- **Maintenance and Repairs:** Any faults, breakdowns, or equipment issues must be reported immediately to Head Office or the approved service provider.
- **Routine Inspections:** Regular inspections are to be conducted to ensure compliance with hygiene, safety, and presentation standards.
- **Service Communication:** Franchise partners must remain informed of all scheduled maintenance and cooperate with technicians or cleaners when required.

5.4 ACCOUNTABILITY

It is vital to realise at the beginning that as a franchise partner you are the owner of your business and as with other businesses, you can expect to succeed through your own efforts, acumen and time put into your business.

Challenges are inevitable in business and when these occur you should accept responsibility and immediately implement remedial action.

We are relying on you to uphold our reputation for excellent customer service, efficiency and high standards of business ethics.

5.5 LOYALTY TO THE FRANCHISE BRAND

The long term success of our group depends on individual loyalty and participation. Your own personal welfare is tied in with the group; therefore, it is in your own interest to communicate freely, participate actively and productively in the franchise network.

Develop a group attitude, run your business according to our Franchise Agreement and the Franchise Operations Manual and don't be tempted to alter our successful system.

SECTION 6: HEAD OFFICE SUPPORT

6.1 ABOVE AND BELOW THE LINE THINKING

Maintaining a healthy relationship with the head office will assist you in building your business. A healthy relationship means active communication that is positive and constructive.

At Laundré, we adopt an '**above the line**' approach.

- Operating above the line is open and positive.
 - It's about ownership, accountability and responsibility.
-

- Operating below the line is closed and negative.
- It's about denial, excuses, defensiveness and blame.

Head Office welcomes your ideas and constructive feedback, so they can constantly improve processes to benefit all franchise partners and Laundré franchise network.

Subject to your rights at law, if the Head Office requests any information, you must provide that information or undertake the relevant action, as soon as possible.

The following outlines the typical customer journey at a Laundré laundromat, capturing the full experience from first awareness to repeat visits.

11.2 THE TYPICAL CLIENT JOURNEY

Here is an overview of the typical client journey.

1. The Need Arises

A customer's journey with Laundré often begins when the need for clean clothes suddenly becomes urgent whether after unexpected rain, a broken home washing machine, or a power outage. For others, it's simply part of their weekly routine, drawn by the convenience, quality, and ambience that Laundré offers.

2. Finding the Laundromat

When customers search online for a *"laundromat near me,"* Laundré consistently appears at the top of search results thanks to Head Office's *targeted SEO and digital marketing strategies*. Others may return after a previous visit or come on the recommendation of friends or family who appreciate the brand's clean, safe, and modern environment.

3. Arrival & First Impressions

Upon arrival, customers immediately sense the Laundré difference. The space is bright, beautifully designed, and welcoming free of the harsh lighting and noise typical of traditional laundromats.

A neutral colour palette, warm lighting, and ambient background sounds replace mechanical hums, creating a calm, contemporary atmosphere.

CCTV, live PA systems, and microphone-enabled technology provide an added sense of security, while a security guard ensures the store opens and closes safely each day. Each location also offers convenient nearby parking for easy drop-off and pick-up, even with large laundry loads.

4. Guidance & Support

Customers are guided through their experience with intuitive, visual instructions displayed throughout the store. QR codes, short video guides, and simple icons make it easy for first-time users to get started.

Laundré's AI-powered in-store assistant, **Nelo**, offers real-time support through on-screen interactions, answering common questions and walking customers through each step from selecting a machine to processing payment.

For additional assistance, a **Laundré Concierge** is available during operational hours via SMS, ensuring that help is always just a message away.

5. Selecting a Machine & Using Detergent

Customers select an available washer or dryer from the clearly numbered machines. They can bring their own detergent or purchase Laundré Pods pre-measured detergent pods sold in-store. These pods simplify the process, reduce residue build-up, and minimise the need for extra cleaning aligning with Laundré's commitment to convenience and sustainability.

6. Payment & Options

Every Laundré laundromat is entirely cashless, reflecting the brand's commitment to modernity, hygiene, and efficiency. Customers simply tap their card or phone using the BubblePay POS kiosk to activate the selected machine.

For returning users, the system offers options to register their phone number for loyalty credits, subscriptions, or automated promotions, encouraging repeat business and long-term engagement.

7. Washing & Drying Cycle

A typical wash cycle lasts around **25 minutes**, while drying takes approximately **35 minutes**. Customers are welcome to relax in-store or step out to run errands knowing their laundry is safe and the space secure.

In future system updates, customers will receive **text notifications** once their laundry cycle is complete, allowing for even greater convenience.

8. A Lasting Impression

Every element of the Laundré experience from design and technology to music and lighting is crafted to leave a lasting impression. Customers leave feeling that they've experienced something different: a laundromat that feels refined, secure, and surprisingly enjoyable.

By removing barriers like coins, queues, and confusion, Laundré turns a chore into a moment of calm. The result is a brand that customers remember, recommend, and return to not because they have to, but because they want to.

SECTION 12: FRANCHISE DISPUTE RESOLUTION

Read in Conjunction with Part 4 of The Franchising Code of Conduct (Clause 36–45 of the Code set out the requirements for handling disputes).

12.1 DISPUTE RESOLUTION PROCESS

While no one enters into a business partnership expecting problems, the very nature of people working together means that from time to time, misunderstandings or disagreements can occur. In the Laundré franchise network, we are committed to resolving disputes fairly, efficiently, and in a way that preserves the relationship between the franchisor and the franchise partner.

To ensure all issues are handled in line with Australian law and best practice, we follow Part 4 of the Franchising Code of Conduct, which promotes the cost effective and timely resolution of disputes. This section outlines a clear complaint handling procedure that must be followed when a dispute arises.

Franchise partner may choose to follow either:

- The internal dispute resolution procedure outlined in their franchise agreement, or
- The procedure set out in the Franchising Code of Conduct (detailed below).

Regardless of which process is used, both parties must attempt to resolve the dispute in a reconciliatory and cooperative manner, in line with their obligations under the Code including the requirement to act in good faith.

12.2 CODE COMPLAINT HANDLING PROCEDURE

Step 1: Notify the Other Party in Writing

The party raising the complaint (either the franchise partner or the franchisor) must provide written notice to the other party. This written notice must include:

- The nature of the dispute
- The outcome sought.
- The actions the complainant believes will settle the dispute.

This initial communication should be clear, constructive, and made in good faith.

Step 2: Attempt to Resolve the Dispute

After receiving the written notice, both parties are required to genuinely attempt to resolve the issue directly. This may involve:

- Holding discussions or meetings at reasonable times
- Being transparent about intentions
- Complying with any relevant confidentiality agreements during and after discussions

This stage is a chance for resolution without third-party involvement.

Step 3: Engage in Mediation

If the dispute has not been resolved within 21 days of the written notice, either party may refer the matter to mediation.

- Both the franchise partners and franchisor must be represented by someone with authority to settle the dispute.
- The mediator determines the time and place of the mediation, which must take place in Australia.
- Legal representation is not required, but if either party chooses to involve a lawyer, they must notify the mediator so the other party can arrange similar representation if desired.
- Attendance at mediation is mandatory for both parties once initiated.

If the parties cannot agree on a mediator, either may request the appointment of one via the Franchising Mediation Adviser, facilitated by the Australian Small Business and Family Enterprise Ombudsman (ASBFEO).

More information is available at www.asbfeo.gov.au.

Additional Notes on Dispute Resolution

- *Good Faith:* Throughout the entire dispute resolution process, both parties must act in good faith, which includes being honest, cooperative, and respectful in all dealings.
- *Collective Mediation:* If multiple franchise partners have similar disputes with the same franchisor, they may request joint mediation, which may be more time- and cost-effective.
- *Arbitration (Optional):* If mediation fails, parties may choose to proceed with voluntary arbitration, where a neutral arbitrator issues a binding decision. Both parties must agree in writing to pursue arbitration.

SECTION 14: WORKPLACE HEALTH AND SAFETY

14.1 WORK HEALTH & SAFETY (WHS) RESPONSIBILITIES

Although Laundré is a **low-touch and remotely managed franchise**, each franchise partner still holds a degree of responsibility under Australian Work Health and Safety (WHS) legislation.

The key principle is that *all parties who influence or control a business activity share a duty of care* even if day-to-day operations are outsourced.

14.2 PRIMARY DUTY OF CARE

As the business owner, the franchise partner is considered a Person Conducting a Business or Undertaking (PCBU) under WHS law.

While they are not physically operating the site, they must still ensure *as far as reasonably practicable* — that the laundromat is a safe environment for:

- Cleaning and maintenance contractors
- Customers using the facility.
- any visitors or service personnel

This means the franchise partner must **take reasonable steps** to ensure that the systems, contractors, and premises are managed safely.

14.3 DELEGATION OF ONSITE DUTIES

Laundré's franchisor directly manages all day-to-day safety operations, including:

- Cleaning and maintenance scheduling
- Contractor engagement and supervision
- Security and access control
- Incident response procedures

Because these duties are contracted and controlled by Head Office, the franchisor assumes the *practical WHS management role* for each site. However, the franchise partner remains responsible for ensuring the franchisor's systems are in place and followed for example, confirming service records, maintenance logs, and risk assessments are being completed.

14.4 FRANCHISE PARTNER RESPONSIBILITIES (REMOTE OVERSIGHT)

The franchise partner's WHS obligations are therefore primarily administrative and oversight-based, not physical.

They include:

- ✓ Ensuring that only Head Office-approved contractors perform cleaning, maintenance, or repairs.
- ✓ Confirming via monthly reports or app-based dashboards that safety checks and maintenance tasks are being completed.
- ✓ Maintaining appropriate insurance policies (business, contents, and public liability).
- ✓ reporting to Head Office any incidents, hazards, or complaints identified through CCTV or system alerts.
- ✓ Cooperating with Head Office to support compliance audits or incident investigations.

14.5 HEAD OFFICE RESPONSIBILITIES

The **franchisor**, acting as the operational manager of each site, assumes responsibility for:

- Conducting regular risk assessments and site safety inspections
- Managing cleaning, waste disposal, and chemical handling protocols
- Ensuring electrical, plumbing, and mechanical safety checks are completed.
- Providing and maintaining CCTV and lighting for security
- Keeping records of all maintenance and WHS documentation

14.6 SUMMARY OF WHS ROLES

Responsibility Area	Franchise partner	Franchisor (Head Office)
Day-to-day safety checks		✓ Conducted by Head Office contractors
Cleaning and maintenance		Managed and logged by Head Office
Insurance compliance	Maintain business and liability cover	Ensure contractors are insured
Incident reporting	Report any issues seen via system alerts	Respond, document, and resolve
Risk assessments	Support & review	Conduct & record
System safety monitoring	Via remote dashboard access	✓ Active oversight

14.7 PRACTICAL APPLICATION

In practice, the franchise partner's WHS responsibility is to **ensure that systems exist and function**, not to carry out on-site work themselves. This model makes the franchise ideal for investors or absentee owners while still ensuring compliance with Australian WHS standards through a structured, documented management system.

Laundré's franchisor manages the physical safety, maintenance, and operational compliance of each laundromat. The franchise partner's role is limited to ensuring those systems are in place, reviewing reports periodically, and maintaining appropriate insurance coverage.

In essence: Head Office ensures the site is safe the franchise partner ensures the system is working.

SECTION 15: EXITS & RENEWALS

The Australian Government has introduced significant changes to the Franchising Code of Conduct, effective 1 April 2025, which effect the exit and renewal of the franchise agreement.

15.1 RENEWAL PROCEDURES

1. **End of Term Notice:** Franchisors must inform franchise partner at least six months before the franchise agreement ends (or one month for agreements shorter than six months) whether they intend to renew or extend the agreement.
2. **Disclosure Requirements:** If renewal is offered, franchisors must provide the franchise partners with an updated disclosure document, unless the franchise partners has received one in the past 12 months. A mandatory 14-day consideration period applies before the agreement can be renewed or extended.
3. **Opt Out Provision:** Franchise partner can choose to opt out of receiving the disclosure document and the Code if the renewed or extended agreement is substantially similar to the previous one. However, this decision should be made cautiously, as important changes may have occurred since the last disclosure.
4. **Restraint of Trade Clauses:** Franchise agreements entered into, renewed, or extended on or after April 1, 2025, cannot include restraint of trade clauses that apply if the franchisor decides not to renew or extend the agreement.

15.2 EXIT PROCEDURES

1. **Franchise partners–Initiated Termination:** Franchise partner can propose early termination of the agreement. While franchisors are not obligated to agree, they must provide reasons for any refusal.
2. **Franchisor Initiated Termination:** Franchisors can terminate the agreement on specific grounds, such as insolvency or serious breaches, but must provide seven days' written notice. If the franchise partners disputes' the termination, the franchisor must not terminate the agreement for 28 days to allow for dispute resolution.
3. **Compensation for Early Termination:** For agreements entered into, renewed, or extended on or after November 1, 2025, franchisors must include provisions for compensating franchise partner if the agreement is terminated early due to the franchisor withdrawing from the market, rationalising its network, or changing its distribution model.
